EDUCATION

Master of Technology VLSI Design Indian Institute of Engineering Science & Technology	Aug. 2023 – July 2025 Shibpur, Howrah
Bachelor of Technology Electronics & Communication Engineering Kalyani Govt. Engineering College	Aug. 2019 – July 2023 Kalyani, Nadia

WORK EXPERIENCE

Analog Design Senior Engineer Full Time Synopsys, Inc.	July 2025 – Present Bagmane Capital Tech Park, Bangalore
- Successfully taped out 2 Memory PHY Projects on latest technodes - Worked on digital delay line macro, reduced timing validation effort by 40%	
PCB Designer Intern Adben Industries Pvt. Ltd.	June 2021 – November 2021 Kolkata
- Designed multi-layer PCB for an IoT device on KiCAD - Designed 4-layered SMD PCB for a smart-watch	
IoT Engineer Mind Webs Ventures	July 2022 – January 2023 Sector-V, Salt Lake, Kolkata
- Made and maintained projects on Node-js backend and Angular frontend - Made IoT projects involving ESP32, ESP8266, RFID sensors and WiFi HTTP and SocketIO	

SKILLS

Languages: English, Bengali (Native), Hindi
Programming: Python, MATLAB, Arduino, Verilog, Java, C/C++, HTML, Javascript
Document Creation: Microsoft Office Suite, LaTeX, Markdown
Tools: Xilinx ISE / Vivado, Cadence Virtuoso, KiCAD, EasyEDA, LTSpice, ESP-IDF, PlatformIO, Node-js, Firebase, STMCube IDE, Eclipse, VS Code, Git

PROJECTS AND RESEARCH

Variable Gain Fully Differential Amplifier on SCL 180nm PDK M.Tech Final Project IIST Shibpur	Summer 2025
1.8V Single rail operation, Fully Differential Output - Chopper Amplifier with digitally-tunable wide-range amplification - Chopper Current-mode Bandgap Reference circuit	
IoT Water Management System and Home Automation B.Tech Final Project Kalyani Govt. Engineering College	Summer 2023
- ESP32, Socket IO (WebSocket), WiFi, Node-js based full stack IoT home automation project from scratch - Programmable capacitive water level sensing and programmable intelligent IoT water pump and schedule based appliance control	
WiFi based autonomous bot control system with computer vision Python, Cpp Flipkart GRiD 3.0 Robotics Challenge	Autumn 2021
- Computer vision based Python application for monitoring bot position in a maze - MQTT based real-time bot movement control and maze solving	

COMMUNITY INVOLVEMENT

VLSID Conference 2024 Volunteer from IIST Shibpur	January 2024 ITC Royal Bengal, Kolkata
International Symposium on Devices, Circuits and Systems 2025 Volunteer from IIST Shibpur	May 2025 Hotel Hindustan International, Kolkata
